By Mike Hernacki, Bobbi DePorter

Quantum Memory : Working Magic with Your Memory By Mike Hernacki, Bobbi DePorter

A part of the brain decides if something is important before it sends it to long-term memory. Discovering "What's In It For Me" (WIIFM) is key to a strong memory. In Quantum Memory you'll learn how to: Memorize massive amounts of information with little effort; develop imagination and association skills; use the linking method, the Rainbow strategy, and the Phonetic Peg system; develop visualization; and use acronyms, creative sentences, visual and auditory cues to enhance memory. Discover the advantages to using a memory system.

Editorial Review

About the Author

Bobbi DePorter is president of Learning Forum, producing programs for students, teachers, schools and organizations across the US and internationally. She began her career in real estate development and ventured to co-found a school for entrepreneurs called the Burklyn Business School. She studied with Dr. Georgi Lozanov from Bulgaria, father of accelerated learning, and applied his methods to the school with great results. Having two children and seeing a need to teach students how to learn, she then applied the techniques to a program for teenagers called SuperCamp, which has now helped thousands of students relearn how they learn and reshape how they live their lives. In addition to SuperCamp, Learning Forum produces Quantum Learning for Teachers staff development programs for schools, and Quantum Learning for Business for organizations.

She is the author of ten books on the subject of learning. Quantum Learning: Unleashing the Genius in You, Quantum Teaching: Orchestrating Student Success, Quantum Business: Achieving Success through Quantum Learning, plus seven books in the Quantum booklet series.

Users Review

From reader reviews:

Santiago Klein:
