### Secrets of Female Body Language. Learn how to read her.

A long time ago, someone coined the phrase, “Actions speak louder than words.” Indeed they do! And even though body language may often be pretty subtle, learning to read and interpret it can send you well on your way to understanding what’s behind a woman’s tilt of the head, raise of her eyebrow, folding of her arms, or the way she’s leaning or standing as you talk with her.

Whether you’re interested in becoming more skilled in female body language in order to learn whether she’s interested in you, bored by you, giving you a signal that she’d like to become more intimate, respects, admires or is repelled by you, this book will offer tips on how to know more and use it to your advantage.

### Some of the topics you’ll find inside the following pages include:

- She’s flirting, and how to keep that going
- She’s mad or unhappy with how the conversation’s moving along
- How to immediately know when her body language is telling the truth about her inner thoughts even if her words are not
- And much more!

Women have been called “a mystery,” “enigmas” and “complicated” among other labels. After reading this book, even if you don’t always understand them completely, you’ll have a much better grasp on what their body language is really telling you.
