“The truth is a good percentage of the general public does not know a thing about valuable coins. They are far too busy in their day to day lives to stop and look at the value associated with a simple coin. To them it is just an old coin. This is a fact and a fact the would be coin collector like myself can easily capitalize on and so can you.” Mark Smith

When was the last time you used some actual physical money to buy something? It might have been a while, right? Modern technology has all but eliminated physical currency. People are getting paid electronically and they are spending

their money electronically too.

Where did all the actual physical money go? Think about that for a minute. In the United States alone there have been billions of coins created. If everyone is using electronic methods to pay for everything, where did all of these coins go?
