Labor and Delivery Nursing: Guide to Evidence-Based Practice By Michelle Murray PhD RNC, Gayle Huelsmann BSN RNC

Where was this book when I was a new nurse just learning the ropes of labor and delivery? This is a true gem of a book-a must for any new grad going into labor and delivery. I recommend this book for every labor and delivery floor."

Cindy Curtis, RNC, IBCLC, CCE

Former Director, The Family Birth Center
Culpeper Regional Hospital
Lignum, VA

"The best one stop reference book for the experienced and noviced Labor and Delivery RN....Finally an excellent Labor and Delivery book by RN's -- for RN's."

Garla DeWall, RNC

Presbyterian Hospital in the Family Birthing Center
Albuquerque, New Mexico

Labor and delivery nursing requires critical thinking, constant caring, teamwork, and communication. As the first line of defense to prevent injury, labor and delivery nurses take on some of the most difficult and trying challenges in the delivery room.

Murray and Huelsmann present this clinically oriented guide to help labor and delivery nurses make wise decisions in the delivery room. The authors provide a wealth of insight on how to maximize both maternal and fetal outcomes. This book provides authoritative guidance on intervention options, creation of patient-centered plans of care, and improved communication with other members of the obstetrics team.

Special Features:

- Explains the stages and phases of delivery, pain management, patient assessment, and much more
- Features references, relevant graphics, skills checklists, and review questions at the end of each section
- Useful for RNs new to the field, seasoned practitioners looking for updated methods and data, and nurses preparing for certification and licensure

With this book, nurses will gain the confidence and competence to approach

labor and delivery challenges with care and efficiency."

Her best-selling books include *Antepartal and Intrapartal Fetal Monitoring (3rd ed.)* and *Essentials of Fetal Monitoring (3ed ed.)*.||Gayle Huelsmann, BSN, RNC, is certified in inpatient obstetrics and holds a certificate of advanced qualification in electronic fetal monitoring from the National Certification Corp.,

Chicago. She has been an antepartal nurse and a labor and delivery nurse for 29 years. She was also maternal air transport nurse with fixed wing and rotor wing aircraft. She is an award winner of the PRIDE nurse award from Presbyterian Hospital.

Users Review

From reader reviews:

Robert Henderson:

Spent a free time for you to be fun activity to do! A lot of people spent their down time with their family, or their very own friends. Usually they undertaking activity like watching television, going to beach, or picnic in the park. They actually doing ditto every week. Do you feel it? Do you need to something different to fill your own personal free time/ holiday? Could possibly be reading a book can be option to fill your free of charge time/ holiday. The first thing that you will ask may be what kinds of publication that you should read. If you want to consider look for book, may be the guide untitled Labor and Delivery Nursing: Guide to Evidence-Based Practice can be excellent book to read. May be it could be best activity to you.

Lester Magno:

Reading can called head hangout, why? Because while you are reading a book particularly book entitled Labor and Delivery Nursing: Guide to Evidence-Based Practice the mind will drift away trough every dimension, wandering in each and every aspect that maybe unknown for but surely can become your mind friends. Imaging each word written in a guide then become one web form conclusion and explanation that will maybe you never get just before. The Labor and Delivery Nursing: Guide to Evidence-Based Practice giving you a different experience more than blown away your thoughts but also giving you useful details for your better life in this particular era. So now let us explain to you the relaxing pattern here is your body and mind will probably be pleased when you are finished looking at it, like winning a game. Do you want to try this extraordinary spending spare time activity?

Miguel Penix:

This Labor and Delivery Nursing: Guide to Evidence-Based Practice is great reserve for you because the content that is certainly full of information for you who all always deal with world and also have to make decision every minute. That book reveal it facts accurately using great coordinate word or we can claim no rambling sentences inside it. So if you are read the item hurriedly you can have whole data in it. Doesn't mean it only provides you with straight forward sentences but tricky core information with splendid delivering sentences. Having Labor and Delivery Nursing: Guide to Evidence-Based Practice in your hand like getting the world in your arm, data in it is not ridiculous a single. We can say that no e-book that offer you world in ten or fifteen second right but this book already do that. So , this really is good reading book. Heya Mr. and Mrs. active do you still doubt this?

Rafael Perez:

Many people spending their time by playing outside together with friends, fun activity having family or just

watching TV the whole day. You can have new activity to spend your whole day by reading a book. Ugh, do you think reading a book can definitely hard because you have to take the book everywhere? It ok you can have the e-book, taking everywhere you want in your Smartphone. Like Labor and Delivery Nursing: Guide to Evidence-Based Practice which is finding the e-book version. So , why not try out this book? Let's notice.
