No Sex, Please; You Are Indians! By Vijay Prabhu

WHY INDIANS SHOULD STOP HAVING SEX: This short book makes a strong and complex case for a moratorium on all sex by Indians ... but then goes on to present essays that examine and comment on The Land of the Kama Sutra and its love-hate affair with sex and beauty queens, its paradoxical sexual repression, Sushmita Sen, and Khushwant Singh's opinions on Indian repression and Puritanism--an opposite point of view. Some of these essays are from Richard Crasta's controversial and censored 1997 book, "Beauty Queens, Children, and the Death of Sex." What that book does not contain is the satirical "anti-sex" Preface that suggests that it is irresponsible for Indian to have sex, and that there should be a moratorium on sex, and that all male fetuses should be compulsorily aborted.

The essays also suggest that Western policy for Indians has come a long way from "The only good Indian is a dead Indian" to a much more compassionate and humane "The only good Indian male is a sexless Indian male."

For non-pc readers who like subversive, and contrarian writing, who despise censorship and wish to support censored authors, and/or those who are acquainted with India.

As this book was published by an author for whom freedom of expression and integrity are important values, no changes have been made to the text, except for corrections made in the 2-3 years after the original publication.

The pen name "Vijay Prabhu" is used only because it is the name of the protagonist of the author's first novel. It is used a matter of convenience, and has no other significance whatsoever.

Around 15,000 words (50 pages).
