Winautomation For Dummies: Your complete user guide to master the amazing Winautomation tool and automate anything!!!! By Neil Spencer www.winautomation.com

WinAutomation is the most advanced Windows Automation app, featuring a Macro Recorder and a Web Recorder
With WinAutomation you can teach your computer to perform your repetitive tasks automatically

Some of the tasks you can automate with WinAutomation:

Automatically fill and submit web forms with data from local files.

Web Scraping and data extraction from any web page into Excel or text files.

Prerecord mouse clicks and keystrokes via auto clicker, mouse recorder and keyboard macro recorder sent to any desktop application.Retrieve and parse your emails and update a database with the data contained in the emails.

Copy, move, edit, rename, compress, uncompress and manage files and folders in any possible way.

Automate your FTP transfers: Download and upload files or entire folders at schedule.

Launch applications, move, resize, close and manipulate windows, take screenshots.

Read and write data to automate Excel files, connect to SQL databases and manipulate text files.Include logic to automate even the most complex tasks.

Convert your tasks into your very own applications that you can share with others, with the press of a button.Run any task using the built-in advanced task scheduler, when you press a hotkey, when a file is created or deleted, when your site is down or when you receive an email.

Combine all the above to design custom tasks for your specific needs.

winautomation,Easy macro recorder,Windows automation,Best automation software,Best macro recorder,Mouse Recorder,automation testing tools

WinAutomation will automate all your dull and boring, mind-numbing, time-stealing repetitive tasks and win back that precious time.

File operations, database manipulation, spreadsheet handling, email parsing and desktop management have never been easier to automate and execute, firing on key-press or any other trigger!

Macro Recorder
Much more than just a mouse recorder or a keystroke recorder
Perform the task you would like to automate on your screen once and the Macro Recorder will convert it into a series of Actions that can be repeated as many times as you like. After the recording you can further customize the macro to your liking using the Job Designer.

Smart Recording

No Programming Required

The Smart Macro Recorder in WinAutomation will identify each and every single UI element you interact with.

Zero programming background required, just point and click – shoot and go!

Mouse Recorder

Keystroke Recorder

The mouse recorder will track every movement of your mouse and the Auto Clicker will send all the mouse events you choose to.

All the keys you had wished they would type themselves, now they do, with just some incentive from WinAutomation!

Web Automation
Make the Internet work for you instead of the other way around
Just browse through your favorite parts of the Web and collect data, fill forms, download files – do all the things you usually do online and the Web Recorder will convert these into a Macro you can run whenever you need.

Web Recorder

Browser Automation

Record and Playback your activity inside your browser and automatically convert it into a macro that you can then edit however you'd like.

Automate your browsing, take screenshots, access web servers directly, automate web testing.

Form Filling

Web Scraping

Auto-fill forms on any website with data imported from Excel, databases, other websites or any other data source.

Web Scraping all web page content from any website no matter how complex or dynamic.

Visual Job Designer
What You See Is What You Get automation, easy as playing with toy bricks
The Visual Job Editor that will make your fiddling with automation more entertaining than playing around with a pile of toy bricks.

Drag & Drop

Functions Support

Forget scripting and pseudo languages needed to get you started in automation, now you just point, cl
