### Editorial Review

#### Amazon.com Review

The "Father of the U.S. Constitution" and the fourth U.S. President, James Madison, left behind voluminous writings on government, human rights, and human nature. In this compendium of brief excerpts from his essays (including those of *The Federalist*) and speeches, Madison's thoughtful nature, humanity, and wit shine through. Designed as a ready reference to Madison's thought, the excerpted writings tend to be brief, but they are not in any way shallow. Indeed, Madison possessed the gift of saying much in succinct and thoughtful prose, and the brevity of some of the selections accentuate their power.
