Ritual, Violence, and the Fall of the Classic Maya Kings (Maya Studies)

From University Press of Florida

“A valuable contribution to our knowledge of the events surrounding the collapse of the ancient Maya in the Late and Terminal Classic periods, particularly the death of kings and the failure of the institution of divine kingship.”—Lisa LeCount, coeditor of *Classic Maya Provincial Politics: Xunantunich and Its Hinterlands*

“A comprehensive look at the concept of Maya kingship as well as new insights into the Maya collapse—a must read for all Mayanists.”—James Garber, editor of *The Ancient Maya of the Belize Valley: Half a Century of Archaeological Research*

Maya kings who failed to ensure the prosperity of their kingdoms were subject to various forms of termination, including the ritual defacing and destruction of monuments and even violent death. This is the first comprehensive volume to focus on the varied responses to the failure of Classic period dynasties in the southern lowlands. The contributors offer new insights into the Maya “collapse,” evaluating the trope of the scapegoat king and the demise of the traditional institution of kingship in the early ninth century AD—a time of intense environmental, economic, social, political, and even ideological change.
