

Advances in Production Management Systems: Perspectives and future challenges (IFIP Advances in Information and Communication Technology)

By Norio Okino, Hiroyuki Tamura, Susumu Fujii

Advances in Production Management Systems: Perspectives and future challenges (IFIP Advances in Information and Communication Technology)

By Norio Okino, Hiroyuki Tamura, Susumu Fujii

This volume includes 41 revised papers selected from 125 papers presented at the 6th IFIP Technical Committee 5/Working Group 5.7 International Conference on Advances in Production Management Systems - APMS'96 -held at Kyoto, Japan, 4-6 November 1996. The task of selecting papers was accomplished by the IPC members voting. The selected papers were reviewed by IPC members who attended the conference. Based on the comments of reviewers, each paper was revised and rewritten in the format of this book. Therefore, the quality of each paper was raised very much. The papers selected in this volume were classified into invited articles and six themes taking into account the perspectives and future challenges in production management systems. Invited articles provide the overview of the present and future trend in the manufacturing world. Six themes were Next Generation Manufacturing Systems and Production Management, Benchmarking, Integration in Manufacturing and Decentralized Production Management, Strategic Aspects, Production Planning, and Production Scheduling. Each theme covers important area of present and future production management reflecting the recent trend in manufacturing toward globalization, agility in variety production, human centered manufacturing, environment consciousness, and so on. We hope that this volume will emerge a lot of new ideas to reach the goal of IFIP WG5.7 "Computer Aided Production Management" and to bridge the gap between research and industrial practice in production management systems.

Editorial Review

Users Review

From reader reviews:

Benjamin Deloatch:

Do you certainly one of people who can't read enjoyable if the sentence chained within the straightway, hold on guys this particular aren't like that. This Advances in Production Management Systems: Perspectives and future challenges (IFIP Advances in Information and Communication Technology) book is readable by means of you who hate the perfect word style. You will find the data here are arrange for enjoyable reading through experience without leaving perhaps decrease the knowledge that want to supply to you. The writer associated with Advances in Production Management Systems: Perspectives and future challenges (IFIP Advances in Information and Communication Technology) content conveys the idea easily to understand by lots of people. The printed and e-book are not different in the articles but it just different as it. So , do you even now thinking Advances in Production Management Systems: Perspectives and future challenges (IFIP Advances in Information and Communication Technology) is not loveable to be your top listing reading book?

Benjamin Williams:

Information is provisions for those to get better life, information nowadays can get by anyone in everywhere. The information can be a information or any news even a concern. What people must be consider when those information which is within the former life are challenging be find than now's taking seriously which one is suitable to believe or which one the resource are convinced. If you find the unstable resource then you understand it as your main information we will see huge disadvantage for you. All those possibilities will not happen throughout you if you take Advances in Production Management Systems: Perspectives and future challenges (IFIP Advances in Information and Communication Technology) as your daily resource information.

Carol Stripling:

People live in this new morning of lifestyle always attempt to and must have the extra time or they will get lot of stress from both everyday life and work. So , once we ask do people have extra time, we will say absolutely indeed. People is human not just a robot. Then we consult again, what kind of activity do you have when the spare time coming to you actually of course your answer will unlimited right. Then do you try this one, reading textbooks. It can be your alternative in spending your spare time, often the book you have read is actually Advances in Production Management Systems: Perspectives and future challenges (IFIP Advances in Information and Communication Technology).

Todd Lyons:

Is it a person who having spare time and then spend it whole day simply by watching television programs or just resting on the bed? Do you need something totally new? This Advances in Production Management Systems: Perspectives and future challenges (IFIP Advances in Information and Communication Technology) can be the response, oh how comes? The new book you know. You are thus out of date, spending your free time by reading in this brand-new era is common not a nerd activity. So what these textbooks have than the others?
