

English Words from Latin and Greek Elements

By Donald M. Ayers, Thomas D. Worthen, R. L. Cherry

English Words from Latin and Greek Elements By Donald M. Ayers, Thomas D. Worthen, R. L. Cherry

Since 1965, Donald Ayers' *English Words from Latin and Greek Elements* has helped thousands of students to a broader vocabulary by showing them how to recognize classical roots in modern English words. Its second edition, published in 1986, has confirmed that vocabulary is best taught by root, not rote. The importance of learning classical word roots is already acknowledged by vocabulary texts that devote chapters to them.

Why a whole book based on this approach? Ayers' text exposes students to a wider range of roots, introduces new English words in context sentences, and reinforces vocabulary through exercises. It promotes more practice with roots so that students learn to use them as tools in their everyday encounters with new words. *English Words* is written from the standpoint of English; it neither attempts to teach students Latin or Greek nor expects a knowledge of classical languages on the part of instructors. Its success has been demonstrated at both the secondary and college levels, and it can be used effectively with students in remedial or accelerated programs.

An Instructor's Manual (gratis with adoption) and a Workbook are also available.

Editorial Review

Review

"A book like [this] is evidently necessary in a time in which our education has slid down to a level nobody would have thought possible about half a century ago."

—*General Linguistics*

From the Inside Flap

Since 1965, Donald Ayers' "English Words from Latin and Greek Elements" has helped thousands of students to a broader vocabulary by showing them how to recognize classical roots in modern English words. Its second edition, published in 1986, has confirmed that vocabulary is best taught by root, not rote. The importance of learning classical word roots is already acknowledged by vocabulary texts that devote chapters to them. Why a whole book based on this approach? Ayers' text exposes students to a wider range of roots, introduces new English words in context sentences, and reinforces vocabulary through exercises. It promotes more practice with roots so that students learn to use them as tools in their everyday encounters with new words. "English Words" is written from the standpoint of English; it neither attempts to teach students Latin or Greek nor expects a knowledge of classical languages on the part of instructors. Its success has been demonstrated at both the secondary and college levels, and it can be used effectively with students in remedial or accelerated programs.

An Instructor's Manual (gratis with adoption) and a Workbook are also available.

From the Back Cover

Specially prepared to supplement the second edition of Ayers's text, this classroom-tested workbook contains a variety of exercises that reinforce the lessons in the text and help promote word-building skills.

Users Review

From reader reviews:

Paula Mendoza:

As people who live in often the modest era should be revise about what going on or info even knowledge to make these people keep up with the era which is always change and move ahead. Some of you maybe can update themselves by looking at books. It is a good choice for you but the problems coming to you is you don't know what type you should start with.
