Calculus Workbook For Dummies By Mark Ryan

Your light-hearted, practical approach to conquering calculus

Does the thought of calculus give you a coronary? You aren't alone. Thankfully, this new edition of *Calculus Workbook For Dummies* makes it infinitely easier. Focusing "beyond the classroom," it contains calculus exercises you can work on that will help to increase your confidence and improve your skills. This hands-on, friendly guide gives you hundreds of practice problems on limits, vectors, continuity, differentiation, integration, curve-sketching, conic sections, natural logarithms, and infinite series.

Calculus is a gateway and potential stumbling block for students interested in pursuing a career in math, science, engineering, finance, and technology. Calculus students, along with math students in nearly all disciplines, benefit greatly from opportunities to practice different types of problems—in the classroom and out. *Calculus Workbook For Dummies* takes you step-by-step through each concept, operation, and solution, explaining the "how" and "why" in plain English, rather than math-speak. Through relevant instruction and practical examples, you'll soon learn that real-life calculus isn't nearly the monster it's made out to be.

- Master differentiation and integration
- Use the calculus microscope: limits
- Analyze common functions
- Score your highest in calculus

Complete with tips for problem-solving and traps to avoid, *Calculus Workbook For Dummies* is your sure-fire weapon for conquering calculus!

Editorial Review

From the Back Cover

- Practice solving hundreds of calculus problems
- Review key calculus concepts
- Get complete answer explanations for all problems

The lighthearted, practical way to conquer calculus

Does the thought of calculus give you a coronary? Fear not! This friendly workbook takes you through each concept, operation, and solution, explaining the "how" and "why" in plain English, rather than math-speak. Through relevant instruction and practical examples, you'll soon discover that calculus isn't nearly the monster it's made out to be.

- **Remember where you came from** — review the basic concepts of precalculus to prepare for the next step
- **Stretch yourself to your limit** — tackle graphs to master limits and continuity
- **Dive into derivatives** — master differentiation basics and apply them to practical problems
- **Gain infinite knowledge** — discover the ins and outs of integration and infinite series

THE DUMMIES WORKBOOK WAY

Quick refresher explanations Hands-on practice exercises A variety of questions to test your knowledge
Online Cheat Sheet A dash of humor and fun

Discover

Hundreds of practice exercises and helpful explanations Real-world examples explaining tough calculus concepts Focused, modular content presented in step-by-step lessons

About the Author

Mark Ryan has taught pre-algebra through calculus for more than 25 years. In 1997, he founded The Math Center in Winnetka, Illinois, where he teaches classes and tutors students in all levels of mathematics.

Users Review

From reader reviews:

James Moore:

The book Calculus Workbook For Dummies make you feel enjoy for your spare time. You may use to make your capable far more increase. Book can being your best friend when you getting pressure or having big problem with the subject. If you can make examining a book Calculus Workbook For Dummies being your habit, you can get much more advantages, like add your current capable, increase your knowledge about a few or all subjects. You could know everything if you like available and read a publication Calculus Workbook For Dummies. Kinds of book are a lot of. It means that, science e-book or encyclopedia or other people. So , how do you think about this book?

Marina Tijerina:

As people who live in the actual modest era should be up-date about what going on or data even knowledge to make all of them keep up with the era which is always change and advance. Some of you maybe can update themselves by looking at books. It is a good choice for yourself but the problems coming to you is you don't know which you should start with. This Calculus Workbook For Dummies is our recommendation to make you keep up with the world. Why, because book serves what you want and wish in this era.

Willie Randolph:

Now a day people that Living in the era just where everything reachable by talk with the internet and the resources within it can be true or not need people to be aware of each info they get. How a lot more to be smart in having any information nowadays? Of course the reply is reading a book. Looking at a book can help people out of this uncertainty Information particularly this Calculus Workbook For Dummies book since this book offers you rich information and knowledge. Of course the information in this book hundred % guarantees there is no doubt in it everbody knows.

Mary Otter:

As a university student exactly feel bored to help reading. If their teacher asked them to go to the library in order to make summary for some e-book, they are complained. Just very little students that has reading's spirit or real their interest. They just do what the professor want, like asked to go to the library. They go to there but nothing reading significantly. Any students feel that studying is not important, boring in addition to can't see colorful pics on there. Yeah, it is to get complicated. Book is very important for yourself. As we know that on this period of time, many ways to get whatever you want. Likewise word says, many ways to reach Chinese's country. So , this Calculus Workbook For Dummies can make you experience more interested to read.
