from the Introduction

What you are about to learn is part of an ancient esoteric science that has been kept secret for centuries. Mystical orders that have been in existence since before ancient Egypt have carefully preserved its secrets totally intact to be released to the public when the time was right. This is the first book to completely unveil these secrets and to show you, in great detail, how to use this fortune-telling system to learn everything about your past, present or future. You are among the first to discover and use the power of this ancient system, which is the original science associated with our common playing cards.

Inside, you will first discover what your Birth Card is. Once you know what this card is, you will be able to look up any year of your life and read the cards of your Yearly Spreads, which give specific and detailed information about every important area of your life. You will be able to know, in advance, what will be happening in the areas of love, romance, family, work, finances, health, travel, legal matters and your spiritual life, just to mention the most important. You will know what are the best times for marriage, business expansion, changing jobs or lines of work, travel and the sale of real estate. You will be able to see what is going to happen between you and anyone else that you know. People you know will be mentioned in your cards by their exact birthday. The essential nature of all your relationships will be fully explained, both on a lifelong basis and for the year ahead.

This book will guide you through the simple steps of doing a complete one-year reading for yourself. This one-year reading has specific information concerning each month of the year. In addition to this, you will learn how to do a weekly reading that shows you the influences present for every day of the week. With these two tools, you will have a valuable guide to help you make all your important decisions. Again, you can also use what you learn to do readings for anyone you choose. Many people have turned this science into a full-time career. Just as Arne Lein did, you will be able to make predictions about anyone for any purpose. Its knowledge can be applied to business or personal matters with great success.

This system is totally unique. Though it involves our common playing cards, you do not need a deck of cards to do a yearly reading, nor will you need any psychic power. All the cards that represent the events and relationships of every month and year of your life are already chosen for you and ready to be looked up in this book. It is like the fabled and mysterious book of destiny that so many ancient myths allude to. You will actually find a record of your entire life within this book. Whether you care to look into the future or the past, the information is here. All you have to learn is where to look it up and how to interpret the language of the cards. The meanings of all the cards are included so that you can easily translate your cards into information you can use.

To do a reading for yourself or anyone else you only need know three bits of information--1) birth date, 2)

sex and 3) occupation. With this information alone, you will be able to access information that is both pertinent and practical. Unlike astrology, you do not need the place or time of birth.

But how specific and accurate is the information? Most people who learn it are surprised by its uncanny accuracy--how it names specific people and dates for events, often pinpointing exactly what will happen and with whom. I have found that this system is 100 percent accurate. This I have discovered after years of using and studying it. The more you use it, the more accurate it becomes because your comprehension of it increases. In the beginning, you will find it pinpointing specific events in an amazing way. Later, as you become more experienced at using it, you will see that it also shows you the hidden influences that are behind the external manifestations in your life. Its value as a guide for life decisions increases each time you use it.
