Editorial Review

Review

"Northouse's third edition of Leadership: Theory and Practice is one of the clearest presentations of the major theories and concepts of leadership available in print anywhere. It should be required reading for every leadership program."

(Dr. Thomas E. Matthews, Director)

"The third edition of Leadership by Northouse provides students with a powerful introduction to the strengths and limits of the social science strand of research in leadership. It provides application for undergraduates while for graduate students, it provides the context needed to plunge into reading research and developing research questions. At the same time, the book raises significant questions about the link between leadership and ethics and values."

(Roger Smitter, Ph.D., Director)

"Peter Northouse has produced a leadership textbook that is accessible to students, but solidly grounded in theory and research. He avoids the 'trap' of making leadership appear too easy or trite, keeping his book serious and scholarly, but still interesting and enjoyable to read. I would feel confident that a student assigned Leadership: Theory and Practice is getting a sound introduction to the field."

(Ronald E. Riggio, Ph.D.)

"I have used Leadership: Theory and Practice for the past four years as the primary text for an undergraduate leadership course that I teach. The comprehensive nature of the chapters, critiques, exercises, self-assessment instruments, and case studies make it very user-friendly for students and faculty."

(Lynn Hertrick Leavitt, Director)

"In his Third Edition, Northouse continues to update and enhance his leadership book. As a textbook for college students, the author provides an outstanding bridge between the research developments and the practical uses for leadership theory. His case study examples are contemporary, intriguing, and enticing to students and teachers who seek enhancement to their study of leadership."

(Christine D. Townsend, Professor)

"Leadership, Theory and Practice is very highly recommended -- whether for both academic study concerning leadership behavior and concrete, or for practical use by any aspiring or practicing leader in the business community today." (The Bookwatch)
