Review

"I have been trying to learn Spanish through a few Spanish applications like Duolingo and Babbel, and since I now know the "basics" this book was perfect for me as a first book to read entirely in Spanish. The sentences are short and I have found that I since reading a couple of Paco Ardit's books I have become much faster at reading and find myself not translating into English in my head! I also love how this book uses typical Argentinian vocabulary. I really hope the author will release some books that introduce/familiarize the reader to different tenses other than the present tense, but in the same easy-to-read format. Muchas gracias Paco!"

- Erin

"This book has a simple story, but it is interesting because it is a detective story. The words and phrases are repeated many times in very short chapters. The writing is smart, sometimes funny, and easy to follow."

- David R. Marrero

"What a delight for an adult Spanish learner! My skills are limited, but this book was relatively easy and fun. I read it on my computer screen, side-by-side with Google Translate, and got instant help whenever I was totally lost. I plan to read it a second time without help tomorrow."

- Kathryn A.

"I am relearning Spanish and this is a fun read after doing the drills!"
