Night Siege: The Hudson Valley UFO Sightings By Dr J. Allen Hynek, Philip J. Imbrogno, Bob Pratt

There is no way you can determine if the "truth is out there" unless someone reveals it. Now you can discover the truth that will rip open the entire UFO phenomenon, when you read *Night Siege* by Dr. J. Allen Hynek, Philip J. Imbrogno, and Bob Pratt.

The late Dr. Hynek was a famous astrologer who was a consultant to the Air Force's "Project Blue Book" UFO investigation and later had a cameo in the movie "Close Encounters of the Third Kind." He began the research that was continued by science educator Imbrogno and journalist Pratt. What they uncovered was that thousands of people have been seeing strange objects in the sky?and sometimes even contacting strange beings?in the Hudson Valley just north of New York City.

- Seven thousand reported sightings
- Witnesses from all walks of life
- Reports from strangers corroborate what others saw
- A huge object that hovers and floats through the sky almost silently
- Encounters with entities who looked like they had gray skin . . . or were reptilian
- Physical evidence that something strange took place

The first edition of *Night Siege* is widely known as a classic in the UFO field for its in-depth reporting. It has now been updated to cover the latest sightings and close encounters. The book features sixteen photos, including one of a UFO taken by a law enforcement official.

To this day, the military, the media, and scientists have remained silent about the Hudson Valley phenomenon. If you want to find out the amazing secrets of UFOs just minutes from New York City, you must get *Night Siege*.

Editorial Review

Amazon.com Review

New Year's Eve 1982 marked the beginning of one of the most puzzling UFO cases in recent times: the Hudson Valley "siege." The siege begot over 7,000 sightings of a boomerang-shaped craft or crafts moving silently through the sky over New York and Connecticut between 1982 and 1995. *Night Siege* is the collaborative effort of Hynek, Imbrogno, and Pratt to report the data gathered from witnesses of this mystifying experience, without speculation of what it might be. If you missed the first edition of *Night Siege*, this is your chance to delve into the Hudson Valley mystery. If you have read the first edition, you may be interested in the additional data covering sightings from 1986 to 1995, the graphical analysis of the UFO's appearance, and the chronology of the sightings. Aside from the purely factual value of the catalog of reports in *Night Siege*, its coverage of an undeniable series of events that somehow went largely untouched by the local authorities and the national media invites speculation into the origins of these silent objects. --Brian Patterson

From Publishers Weekly

The "Westchester Boomerang" was a UFO reported by hundreds of people in New York State and Connecticut between 1983 and 1986 and described by most witnesses as a hovering, immense V-shaped series of flashing lights connected by a dark structure. UFO investigators Imbrogno (Crosswalks Across the Universe) and Pratt write in detail about the "close encounters" of some 900 people who filled out "witness forms." (Famed UFO author Hynek died in 1986, "as the book was being written," but the authors maintain that he participated in the investigation and include the transcript of a Hynek interview with a witness.) They note a "feeling" common to the witnesses: "They felt as if the object or whatever intelligence that was behind it was trying to communicate with them in some way." After a two-year analysis, the authors conclude that there is "no conventional explanation for the Hudson Valley UFO." The illustrations (not seen by PW) include photos, drawings and sequential frames from a videotape of the lights. Copyright 1987 Reed Business Information, Inc.

From the Publisher

The Hudson Valley is just minutes away from New York City—but something strange has been taking place there. You can learn about it in *Night Siege* by Dr. J. Allen Hynek, Philip J. Imbrogno, and Bob Pratt.

Curiously, the agencies responsible for protecting us—law enforcement agencies, state and federal governments, and the military—are not saying anything . . . or are deliberately ignoring it. Why?

A large, boomerang-shaped object hovering over the area was seen by hundreds of people. It moved slowly and was reported as moving silently or with a humming sound. Yet, the Federal Aviation Administration, which monitors the air lanes where the object was sighted, persists in denying its existence. Why?

Nothing has been heard from the nation's scientists. Why?

Even though the U.S. has one of the most extensive mass communications systems in the world, news of this astounding happening was carried on only one network. Why?

Llewellyn is proud to present *Night Siege*, the most complete examination of this strange, continuing situation. The truth is not just "out there," it is also in this book. If you want to know what is going on in the

most unusual UFO sightings ever, you must get *Night Siege*.
