## The Dimensional Ecology of the Omniverse By Alfred Lambremont Webre

The Dimensional Ecology of the Omniverse: New Book Reveals New Scientific Evidence of the ‘Multiverse’ Concept Written by Yale graduate Alfred Lambremont Webre, this startling book examines the idea that humanity lives on a planet in one universe that exists in a multiverse. Webre, a leading thinker in the field, details his arguments with simple and stunning clarity. In 2000, author Alfred Lambremont Webre released his book, ‘Exopolitics: A Decade of Contact’, which founded Exopolitics, the science of relations among intelligent civilizations in the multiverse. Immediately, Webre became a leading extraterrestrial and time-travel whistleblower and as a result, attracted a lot of attention from both the scientific and political communities. With ‘The Dimensional Ecology of the Omniverse’, Webre cements his role as the developer of the Exopolitics and Dimensional Ecology models of the Omniverse. As Webre points out, the details of his book are vital to help readers understand the connection between science and spirituality. “The book reveals new scientific evidence on matters like the afterlife, the human soul, reincarnation and God,” says Webre. “God used to be a matter of personal belief, but Science is confirming spirituality. As the book also shows, Scientists now know that humanity lives on one planet in one solar system in one universe in a multiverse that has, as one Scientist wrote: “a humungous” number of universes in it. I also detail the evidence that souls and God in the spiritual dimensions are co-creating the universes of the multiverse. Each of our souls is a holographic fragment of God, the Source. These revelations have the potential to change the world.”

Synopsis: Alfred Lambremont Webre’s new book, The Dimensional Ecology of the Omniverse, integrates replicable empirical evidence from intelligent civilizations in the multiverse and from the intelligent civilizations of souls and God in the Afterlife. The book demonstrates a new functioning ecology of intelligence in the dimensions in the Omniverse. Early reviews of the book have been undeniably positive. “Alfred Lambremont Webre’s The Dimensional Ecology of the Omniverse is of extreme importance because multidimensional intelligence opened to all humans when the Mayan Calendar ended in 2011/2012. We are receiving contact from the fully inhabited omniverse that connects with us by telepathy and teleportation in the quantum dimension of our world. Webre’s hypothesis—dimensionality is the key design criteria of the Omniverse as discrete bands of conscious energy by which intelligence organizes itself—is synchronous with my nine-dimensional model that describes how other dimensions contact humans. Webre’s compact and easy-to-read book is a brilliant compilation of solid scientific evidence for the existence of human souls that reincarnate and exist in parallel lives in many dimensions, frequently as

extraterrestrials! This is a must-read for anyone who wants to fully engage with many dimensions to end absolutely any fear of abandonment, death, or the future,” wrote Barbara Hand Clow—co-author with Gerry Clow of *Alchemy of ‘Nine Dimensions: The 2011/2012 Prophecies and Nine Dimensions of Consciousness’*. About the Author: Alfred is a graduate of Yale University and Yale Law School in international law and was a Fulbright Scholar in international economic integration in Uruguay. He has taught economics at Yale University and constitutional law at the University of Texas. Alfred was general counsel to the New York City Environmental Protection Administration, a futurist at Stanford Research Institute (where he directed the proposed 1977 Carter White House extraterrestrial communication study), and was a NGO delegate to the United Nations and the UNISPACE conference. Alfred is active with non-profit organizations concerned with peace, the environment, human rights and social justice, consciousness, and intelligent life in the Omniverse.

### Editorial Review

#### Review

Reviews of the The Dimensional Ecology of the Omniverse are overwhelmingly positive.

"Webre's compact and easy-to-read book is a brilliant compilation of solid scientific evidence for the existence of human souls that reincarnate and exist in parallel lives in many dimensions, frequently as extraterrestrials! This is a must-read for anyone who wants to fully engage with many dimensions to end absolutely any fear of abandonment, death, or the future."

Barbara Hand Clow--co-author with Gerry Clow of Alchemy of 'Nine Dimensions: The 2011/2012 Prophecies and Nine Dimensions of Consciousness'.

#### About the Author

About author Alfred Lambremont Webre Alfred Lambremont Webre's 2000 book, Exopolitics: A Decade of Contact, founded Exopolitics, the science of relations among intelligent civilizations in the multiverse. Using advanced quantum access technology, the U.S. Defense Advanced Research Projects Agency (DARPA) and the Central Intelligence Agency (CIA) time traveled his 2005 book, Exopolitics: Politics, Government, and Law in the Universe, back to 1971, when an unwitting Alfred was examined by a group of approximately 50 CIA and DARPA officials who knew Alfred would be a leading future extraterrestrial and time-travel whistleblower, and would become the developer of the Exopolitics and Dimensional Ecology models of the Omniverse. Alfred's new book, The Dimensional Ecology of the Omniverse, integrates empirical data from intelligent extraterrestrial civilizations and from the intelligent civilizations of souls in the Interlife and demonstrates a new hypothesis of a functioning ecology of intelligence in the dimensions in the Omniverse. Alfred is a graduate of Yale University and Yale Law School in international law and was a Fulbright Scholar in international economic integration in Uruguay. He has taught economics at Yale University and constitutional law at the University of Texas. Alfred was general counsel to the New York City Environmental Protection Administration, a futurist at Stanford Research Institute (where he directed the proposed 1977 Carter White House extraterrestrial communication study), and was a NGO delegate to the United Nations and the UNISPACE conference. Alfred is active with non-profit organizations concerned with peace, the environment, human rights and social justice, consciousness, and intelligent life in the Omniverse. ### Users Review

#### From reader reviews:

#### Dorothy Frazier:

The book The Dimensional Ecology of the Omniverse can give more knowledge and also the precise product information about everything you want. So why must we leave a good thing like a book The Dimensional Ecology of the Omniverse? Wide variety you have a different opinion about guide. But one aim this book can give many details for us. It is absolutely right. Right now, try to closer using your book. Knowledge or information that you take for that, you are able to give for each other; you could share all of these. Book The Dimensional Ecology of the Omniverse has simple shape however, you know: it has great and large function

for you. You can search the enormous world by wide open and read a guide. So it is very wonderful.

**John Harris:**

The experience that you get from The Dimensional Ecology of the Omniverse is a more deep you searching the information that hide within the words the more you get thinking about reading it. It doesn't mean that this book is hard to comprehend but The Dimensional Ecology of the Omniverse giving you joy feeling of reading. The author conveys their point in selected way that can be understood through anyone who read that because the author of this e-book is well-known enough. This particular book also makes your own vocabulary increase well. Making it easy to understand then can go together with you, both in printed or e-book style are available. We advise you for having this particular The Dimensional Ecology of the Omniverse instantly.

**Daryl Church:**

Reading a book to become new life style in this year; every people loves to go through a book. When you study a book you can get a lots of benefit. When you read books, you can improve your knowledge, simply because book has a lot of information upon it. The information that you will get depend on what types of book that you have read. If you wish to get information about your analysis, you can read education books, but if you act like you want to entertain yourself you can read a fiction books, these us novel, comics, and also soon. The The Dimensional Ecology of the Omniverse will give you new experience in examining a book.

**Chuck Bryson:**

Don't be worry for anyone who is afraid that this book will probably filled the space in your house, you might have it in e-book means, more simple and reachable. This kind of The Dimensional Ecology of the Omniverse can give you a lot of friends because by you investigating this one book you have matter that they don't and make you actually more like an interesting person. This kind of book can be one of a step for you to get success. This e-book offer you information that perhaps your friend doesn't know, by knowing more than different make you to be great people. So , why hesitate? Let's have The Dimensional Ecology of the Omniverse.
