

## Clark's Positioning in Radiography 13E

By A. Stewart Whitley, Gail Jefferson, Ken Holmes, Charles Sloane, Craig Anderson, Graham Hoadley

**Clark's Positioning in Radiography 13E** By A. Stewart Whitley, Gail Jefferson, Ken Holmes, Charles Sloane, Craig Anderson, Graham Hoadley

First published in 1939, **Clark's Positioning in Radiography** is the preeminent text on positioning technique for diagnostic radiographers.

Whilst retaining the clear and easy-to-follow structure of the previous edition, the thirteenth edition includes a number of changes and innovations in radiographic technique. The text has been extensively updated, including a new section on evaluating images, The 10-point plan, which is linked throughout to a listing of *Essential image characteristics* for each procedure. The section on digital imaging has been expanded not only to elaborate more extensively on the technology but to demonstrate its various clinical applications.

New sections also include imaging informatics and its role in the modern world of medical imaging, holistic approaches to patient care and discussion of the important aspect of the patient journey.

Students will also benefit from more detailed reference to positioning errors and how to avoid mistakes, as well as a greater emphasis on standard radiation protection measures and guidance on the most recent radiation dose reference levels for specific examinations.

Clark's Positioning in Radiography continues to be the definitive work on radiographic technique for all students on radiography courses, radiographers in practice and trainee radiologists.

### Editorial Review

#### Review

"This new edition of *Clark's Positioning in Radiography* is a well written, easy to follow text-book with some very useful additions" – **Lucie Magilton-Griggen, radiographer, University Hospital Aintree, *RAD Magazine***

#### About the Author

**A. Stewart Whitley**, radiology advisor, UK Radiology Advisory Services, Preston, UK

Gail Jefferson, senior lecturer/advanced practitioner, Department of Medical and Sport Science, University of Cumbria, Carlisle, UK

Ken Holmes, radiography course leader, Department of Medical and Sport Science, University of Cumbria, Lancaster, UK

Graham Hoadley, consultant radiologist, Directorate of Radiology, Blackpool Fylde and Wyre Hospitals NHS Foundation Trust, Blackpool, UK

Charles Sloane, principal lecturer and radiography course leader, University of Cumbria, Lancaster, UK

Craig Anderson, clinical tutor and reporting radiographer, X-ray Department, Furness General Hospital, Cumbria, UK

### Users Review

#### From reader reviews:

#### Kevin Swafford:

Why don't make it to become your habit? Right now, try to prepare your time to do the important take action, like looking for your favorite guide and reading a book. Beside you can solve your short lived problem; you can add your knowledge by the book entitled Clark's Positioning in Radiography 13E. Try to stumble through book Clark's Positioning in Radiography 13E as your buddy. It means that it can to get your friend when you experience alone and beside that of course make you smarter than previously. Yeah, it is very fortunated in your case. The book makes you more confidence because you can know every thing by the book. So , we should make new experience in addition to knowledge with this book.

**Erwin Fast:**

The feeling that you get from Clark's Positioning in Radiography 13E could be the more deep you rooting the information that hide in the words the more you get considering reading it. It does not mean that this book is hard to recognise but Clark's Positioning in Radiography 13E giving you enjoyment feeling of reading. The article writer conveys their point in specific way that can be understood through anyone who read this because the author of this e-book is well-known enough. That book also makes your vocabulary increase well. So it is easy to understand then can go along, both in printed or e-book style are available. We recommend you for having this kind of Clark's Positioning in Radiography 13E instantly.

**Lisa Vazquez:**

Your reading 6th sense will not betray an individual, why because this Clark's Positioning in Radiography 13E e-book written by well-known writer whose to say well how to make book that could be understand by anyone who all read the book. Written throughout good manner for you, still dripping wet every ideas and writing skill only for eliminate your personal hunger then you still question Clark's Positioning in Radiography 13E as good book not just by the cover but also with the content. This is one e-book that can break don't ascertain book by its deal with, so do you still needing another sixth sense to pick this particular!? Oh come on your studying sixth sense already alerted you so why you have to listening to one more sixth sense.

**Jodi Harper:**

You could spend your free time to study this book this book. This Clark's Positioning in Radiography 13E is simple bringing you can read it in the park, in the beach, train and soon. If you did not possess much space to bring the particular printed book, you can buy often the e-book. It is make you easier to read it. You can save the particular book in your smart phone. Therefore there are a lot of benefits that you will get when one buys this book.
