

Neurobehavioral Toxicology: Neurological and Neuropsychological Perspectives, Volume II: Peripheral Nervous System

By James W. Albers, Stanley Berent

Neurobehavioral Toxicology: Neurological and Neuropsychological Perspectives, Volume II: Peripheral Nervous System By James W. Albers, Stanley Berent

This book, the second of three volumes, concentrates on peripheral nervous system disorders. Examining the effects of neurotoxicants on nerve, muscle and the neuromuscular junction, it builds on the scientific principles outlined in volume 1 by looking at the application of the methods discussed, particularly in terms of the evaluation and diagnosis of individual patients and the related process of establishing causation.

Neurobehavioral Toxicology, Volume 2 will be of interest to practicing neurologists and neuropsychologists, as well as to occupational medicine physicians and medical toxicologists.

Editorial Review

Review

'The authors are both very experienced, thoughtful clinicians, as indicated from the clinical anecdotes that frequently illustrate the text, turning what could have been, in less expert hands, rather dry tomes into an engaging read, full of clinical insights and well-reasoned arguments.' - *Stephen Mullin, PsyCritiques, 2nd June 2006*

About the Author

James W Albers is a physician who specializes in Neurology. He is affiliated with the University of Michigan Health System, where he is Professor of Neurology and Director of the Electromyography Laboratory and Co-director of the Neurobehavioral Toxicology Program in the Department of Psychiatry.
